

### Fixed Fire-Fighting System & Fire Detection

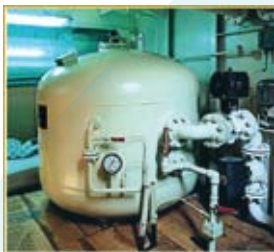

#### CO2 Fire Extinguishing System

the fastest and most efficient agent for fires in enclosed spaces CO2 smothers the fire with in minutes and keeps the damage to a minimum. The CO2 gas itself is stored in the required number of CO2 cylinders which are stored in a separate CO2 room.

For further security in ship's cargo holds, a smoke sampling system can be combined with the CO2 system.

Smoke Detector for Fire
